FINISH especially for HARLEY and BUELL :
silver or black anodise are the standard colors for disc hubs, callipers and master cylinders. The cast iron rotor is silver . Other colours are available at an additional cost of 13.17€ per batch of parts.
Add the following suffix to part # : Black, BLue, Gold, Silver, Purple, Titanium, Red.
WARNING: Chrome plating is available but with a lead time and an extra cost of 40.12€ per part (caliper, disc, CC) or 52.50€ (master cylinder): this finish is strictly reserved for an occasional use. Under no circumstances, water or corrosive products (like removal of snow salt) must not stay on the chrome plating. This would cancel the warranty. In the same way, chips caused by fine gravel would invalidate the warranty as well.
- **polishing** is also available but with a lead time and an extra cost of 16.68€ per part.
